- THE POLICY FOR INTENDED USAGE OF THIS SIGN IS SHOWN ON REVERSE SIDE -

POLICY: G94

The Airport symbol sign (G94) may be used to direct motorists to commercial service airports within 5km (3 miles) of the nearest freeway, or conventional highway intersection directly to the airport, normally not to exceed 25km (15 miles).

If there is more than a single airport in the area, an Airport symbol sign along with a supplemental plaque may be used to indicate the specific name of the airport. For larger international airports a G8 or G86 type sign, with the airport name, may be used.

See Section 4-04.13, Destination Signing, of the Traffic Manual for additional criteria.
